

# ENVIRONMENTAL POLICY BUZULUK a.s., Komárov

As an important manufacturer of piston rings and rubber processing machinery, we adopt, in accordance with our strategy, the following policy in the field of environmental care.

The fundamental priority of our company is not only putting in force consistent observance of legislative requirements which refer to our company and/or which are for our company obligatory but also and primarily application of continual improvement and prevention in all and any areas relating to the environmental protection which are and/or can be affected by BUZULUK activities. By implementing of this "Environmental Policy" we clearly express our relation to the environmental protection.

Management of BUZULUK a.s. clearly realizes responsibility for potential negative impact of our manufacturing activities on the environment and so undertakes the following principles and objectives:

1. By consistent application of environmental management system reveal potential risks of environmental damages and if possible eliminate them in advance.
2. By continual improvement of parameters of our product and processes minimise their negative impact on environment in production and also through the whole life performance.
3. Through various projects focused on optimal consumption of electrical energy, water, gas and other materials and also by implementation of waste recycling programmes reduce consumption of non-renewable sources.
4. Respect rules of landscape protection especially by continual care of reclaimed landfills.
5. Require commitment to the same principles from our suppliers, partners and sub-contractors and partners renting offices and space of BUZULUK a.s.
6. Analyze on yearly base conformity of the environmental management system to the current legislative requirements.
7. Frankly communicate about all environmental matters with employees, local and regional authorities, associations and general public as well as with customers, suppliers and business partners.

This "Environmental Policy" is obligatory, in their entire scope, for all and any employees and activities of BUZULUK a.s.
